Welcome to Flytech International

This special 25 Questions and Answers report is a powerful tool when preparing for your interview. I compiled this list based on the most commonly asked cabin crew final interview questions.

You will find the questions, the guidelines on what your answer should or should not be and a sample answer. I have also included a blank area at each question where you have the space to fill in your answer as it applies to your experience.

I am giving this away to help as many people as I can. I believe that the more you give, the more you receive.

The key to success in your Cabin Crew Assessment Day is preparation. Knowing what to expect and showing the best you can be are crucial factors in the process.

I hope this guide gives you a view into some of the important things you need to think about as you prepare for your final interview. I am also looking forward to sharing a lot more powerful training and information with you!

See you up there,  
Najir Husain
